Additional Information

With Centura X-Ray, I was responsible for our IT Infrastructure. Built and maintained our LAN system, Windows Server, Windows based OS computers and routers. The IP Phone system was also my responsibility.

My service group was also responsible for setting up our customers LAN to utilize our PACS and Imaging systems. If the customer did not have a network in place we would set it up for them.

I was responsible for troubleshooting any problems with the network, computers and software problems.
