OBJECTIVE

Become a part of a software team to utilize and grow my full-stack development and programming skills by helping achieve software goals and visions.

EDUCATION

Valencia College, Orlando, Florida   August 2015 – December 2016
Major in Computer Science; Minor in Business

University of Central Florida Coding Boot Camp, Orlando, Florida   July 2017 – January 2018
Received UCF Division of Continuing Education Certificate
- 24-week full-stack development course

Florida Technical College, Orlando, Florida   January 2019 – Present
Pursuing Bachelor's Degree in Information Technology, Networking,
Web Design and Programming
- Will be CompTIA Security+, A+, Network+ Certified

EXPERIENCE

CompuCor Software Solutions, Inc., Orlando, Florida   September 2017 – January 2018
Junior Intern Software Developer
- Helped create several websites currently being developed for CompuCor including an event tracking and scheduling site in C# and ASP.Net with a SQL Server database backend. This tracker utilizes APIs to external sites like weather and traffic.
- Conducted informal integration testing with manual test procedures.

HDSupply. Orlando, Florida   May 2019 – August 2019
Co-Op Enterprise Linux Analyst
- Joined the summer internship program where I learned the Linux OS by completing projects and tasks assigned to me. Was included in Linux team daily standup meetings, learned python by practicing project examples, learned querying with PuppetDB hosted on a VM, etc.
- Identified, documented and reported bugs, errors, and other issues within software applications during regression and acceptance testing.

PROJECTS

LIRI (Node.js, JSON, APIs, NPM Packages)
- Command line app that takes in parameters and gives you back data. Similar to iPhone's SIRI, but instead is a language interpretation and recognition interface.

"Chuck It" (JavaScript, APIs)
- Worked with a four-person agile development team to create a Chuck Norris meme generator grabbing APIs from https://imgur.com/.

EXTRACURRICULAR ACTIVITIES

Cello First Chair and Award Recipient, Orlando, Florida   August 2004 – June 2015
Ranked Life Scout in Boy Scout Program, Orlando, Florida   August 2008 – June 2015
Leaps and Bounce Event Management Startup, Orlando, Florida   June 2015 – June 2016

SKILLS

Computer: HTML, CSS, JavaScript, Bootstrap, Node.js, jQuery, JSON, MySQL/SQL, C#, .Net, APIs, GIT, TCP/IP, Network Fundamentals, Security Fundamentals, Windows, Linux, Python, SharePoint, Defect/Bug Tracking with JIRA, Requirement Analysis, Regression Testing, Acceptance Testing, Documentation
Other: Agile Development, Problem Solving, Data Entry, Processing Information and Prioritizing Work, Leadership, Critical Thinking, Organization, Strong Attention to Detail, Debugging
