Note: The amount I (or anyone else) can make in a week using the system detailed in this document varies (it is never exactly the same), read below to see the variables, how it works & what to look out for.

## RUSHHH is Just 1 Example...

\$769.10 from \*RUSHHH (\*name of the product), for free (which took just 3 hours)... Is just 1 example of the 1000s in results achieved using [This Simple Copy, Paste & Share Process](#), there

are more examples of actual results shown in this document...

But first let me tell you how you can use this simple & unique system to create your own side income, or even a job replacing income, working just a few hours per week from home.

[\*\*Access The Full Instructions Here\*\*](#)

## **Skills & Costs**

In order to do what I do. I.e. make money from digital products by copying and pasting parts of the products existing sales material, and then sharing on totally free platforms which have massive amounts of targeted traffic...

### **You WILL need the following:**

- You will need to be able to follow simple instructions.
- You will need an internet connection.
- You will need a free Google Account.
- You will need the ability to copy and paste.
- You will need to allow 1 - 3 hours per project.
- Ideally you should have access to a smartphone.
- You'll find it easier to do if you can read and write English.

Here's what you won't need...

### **You will NOT need any of the following:**

- You will NOT need any experience or skill (apart from the ability to copy and paste) to do this.
- You will NOT need an email list or subscribers to do this.
- You will NOT need a website, landing page or any other kind of web page to do this.
- And you will NOT need to invest any money to implement this system.

## How It Works...

# How You Make Money.

The process I use is a unique type of *\*Affiliate Marketing* (*\*explained below*) which makes money by referring 1 digital product at a time, but at the same time having the potential to get paid from multiple products, without doing anything else for those extra payments.

I.e

I embed 1 link for 1 product along with the copied and pasted material. But I can, and usually do get paid for multiple products as the example below shows.

RUSHHH - Super Affiliate							
Suite							
jkenedy	530	109	20 %	\$1.87	\$11.55	\$993.31	
RUSHHH - Unlimited	-	44	8%	\$0.95	\$11.39	\$501.34	
RUSHHH Upgrade 1	-	10	2%	\$0.26	\$13.77	\$137.74	
\$297 Product Case Study	-	23	4%	\$0.21	\$4.72	\$108.66	
RUSHHH - Lite	-	14	3%	\$0.20	\$7.39	\$103.41	
RUSHHH Upgrade 5	-	2	0%	\$0.17	\$46.07	\$92.14	
RUSHHH Upgrade 2	-	5	1%	\$0.08	\$8.98	\$44.90	
RUSHHH Upgrade 3	-	10	2%	\$0.01	\$0.47	\$4.66	
RUSHHH Upgrade 4 Monthly	-	1	0%	\$0.00	\$0.46	\$0.46	

**Please note the screenshot above.**

This is a breakdown of the money I made using [This System](#).

In total **I received \$993.31 in commission** from this product.

I made \$501.34 (underlined in red) from the main offer which my affiliate link forwards to (I.E link destination).

The additional **\$491.97** was received as a result of some people purchasing the main offer, and then purchasing additional 'Connected' products.

Yet I didn't have to lift another finger to make this additional income, and you can do this too... The following explainer will explain how and why.

Or...

[\*\*Click Here To Get Started Now.\*\*](#)

## **Explainer: The basics**

Let's start with the basics...

Read these basics if you are not sure what being an affiliate entails... Or skip if you do.

First...

### **What is affiliate marketing?**

*The following summary & this system is specific to digital products only, i.e. products only available to access online and to download i.e. courses, training, software, video etc.*

Affiliate marketing in its simplest form (and for this system) is where you act as a 'middleman' putting yourself between potential customers and a product those potential customers may be interested in, resulting in earned commission (i.e. money paid to the affiliate) from subsequent sales of the product.

That may sound grand or even complicated, but it isn't, the only thing you as an affiliate need is one link called an affiliate link (or Hoplink).

As an affiliate for a digital product, all you have to do is share your affiliate link with people who may be interested in the product.

Which when clicked, and subsequently results in a sale, pays you (the affiliate) a percentage of everything the customer spends... which can often amount to **100s of dollars from one customer...** [View More Examples Here](#)

## **Can I be an affiliate?**

Yes you can, anyone can be an affiliate, and with many platforms and offers, becoming an affiliate is really simple and takes just a few minutes.

## **Will it cost me anything to be an affiliate?**

Most affiliate programs are totally free to join. I only ever use the free to join affiliate platforms.

## **What is affiliate commission?**

Affiliate commission is the percentage amount of the sale. I.e. however much a customer spends on the product, and connected products, you as an affiliate will receive a percentage.

The average commission percentage for digital products is 50%. Which means if one customer spends \$400 you would receive \$200 (less fees).

## **Do I need Experience or Certain Skills?**

Anyone can make money as an affiliate. You don't need experience or specific skills. You just need to copy and implement a method that is proven to work... [This one for example.](#)

## **How do I get paid for multiple products**

### **When... I Only Promote 1?**

Most digital products consist of multiple products, this is called a funnel, collectively the funnel is an offer.

So while your affiliate link may look like it is only linking to one product (the main product) it is actually linked to the offer which usually consists of multiple products.

## How do I get paid?

The method of payment will depend on the platform.

The platform I use most of the time pays all commission into my account wallet instantly, which I can then withdraw directly to

The screenshot shows a 'Wallet Activity' interface. At the top, there is a dropdown menu set to 'Deposits / Withdrawals'. Below this, there are controls for 'Rows per page: 100', navigation arrows for 'Previous' and 'Next', a search bar labeled 'Search Table', and icons for download and refresh. The main part of the image is a table with the following columns: Activity, Type, Details, Amount (\$), and Status. The table lists six withdrawal transactions, each with a green 'Withdrawal' label, a 'Bank Account' or 'Paypal' type, a 'complete' status, and a negative amount in red text.

Activity	Type	Details	Amount (\$)	Status
Withdrawal	Bank Account	Bank of Ireland (*****) [GBP]	-1,765.67	complete

So... What's

The Secret To Making Money like this as an affiliate?

## **Well... It's NOT What You Think...**

Most people would agree that \$412,000 in affiliate commission is a lot of money. And when you consider that I worked in the construction industry for most of my working life, and that I have no technical background, then it's astounding (at least for me it is).

***Making 100s, even 1000s of extra dollars each week isn't about who you are.***

It's not about email lists, or websites, or how many followers you have. Of course, those things will help you make more, but you don't need any of them. And it's not even about how much money you can throw at it.

The real secret (if you can call it that) is:

## **How you do it...**

For Example

## **What Does Competition Mean?**

If you're a beginner and you do what everyone else does, and what most people tell you to do...

### **Then competition usually means...**

You'll be very lucky to make a single dollar because you're competing with everyone else, everyone's doing the same, and many of those affiliates are going to be a lot better at it than you are.

But...

If you do things differently ['Like This'](#) i.e. the way we do it, then...

### **Competition Works For Us.**

In fact if you [Take a Look at This](#) you'll quickly see why we love Competition because.

### **The More Competition There Is...**

## **The More Money We Can Make**

*Why?*

With the system detailed in this report we can use massive competition to our advantage, I say 'we' because anyone can do this, even complete beginners can do it... [See for yourself.](#)

When 100's & 100s of affiliates are promoting the same product they are spreading the word, building excitement around a product. They are creating a massive Buzz, and Awareness...

They're creating a wave of interest... Which means we don't have to do any of the normal affiliate, product promotion stuff, because our competition has already done it all for us...

All we have to do is swoop in & scoop up a bunch of commission payments on the back of the work and effort of others.

[Check here to see how much I'm making doing this.](#)

## **Copy, Paste, Share**

With this system, which we call CPS (short for Copy, Paste, Share)...

- *We utilise parts of the products' sales material.*
- *And we capitalise on the efforts of other affiliates all promoting the same product, and all doing the same thing.*

**This is exactly what I did to make the \$769** I showed you at the beginning of this report, and it's exactly what I did to make the 1000s of dollars in affiliate commission below.

And everything is **'Pure Profit'** because it doesn't cost me anything to implement CPS.

---

### ***Legalities & Ethics.***

*Just in case you were wondering: what I do with CPS is totally legal and ethical, If it wasn't then the people who own the products I've been making money from wouldn't be happy, and they certainly wouldn't be liking, and commenting on my public result posts either.*

---

## How Often Can I Do This?

Usually when I show people this system for the first time, then show them how easy it is to do, and then show them the results I'm getting doing this... like the account screenshots below...

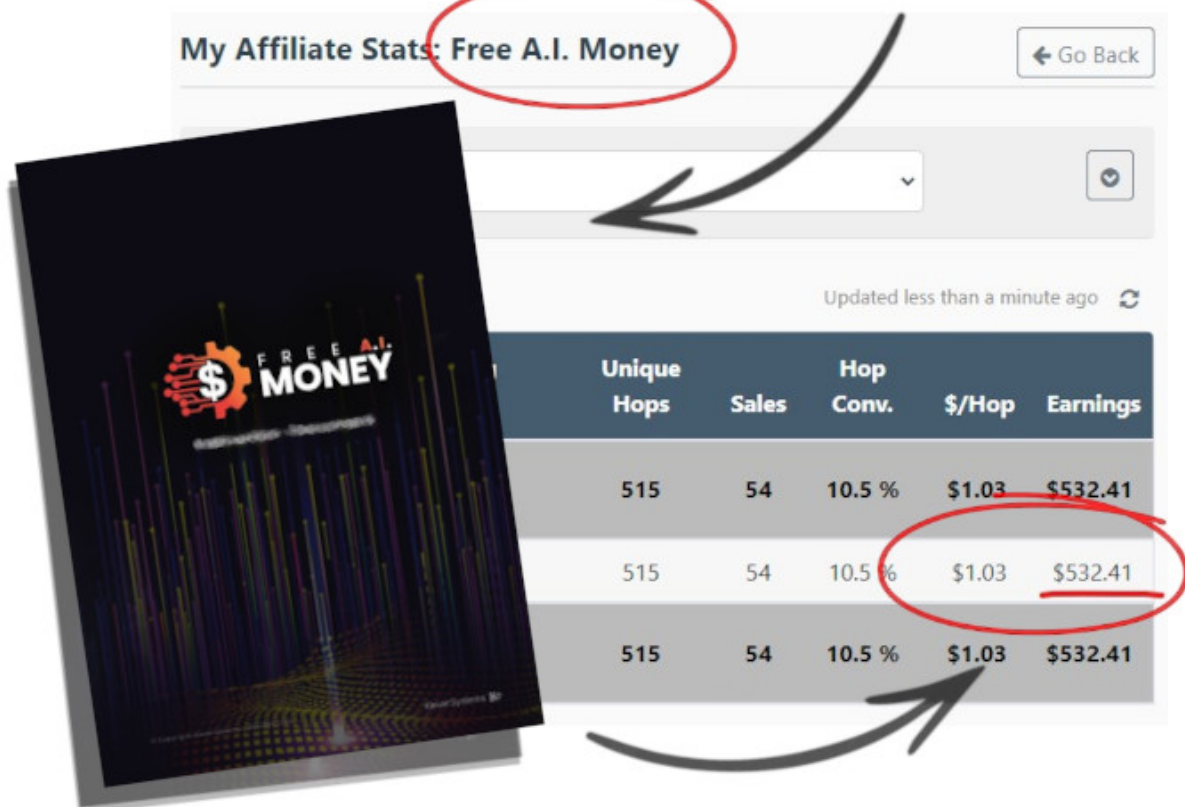

*They say "I'm going to do this several times a day".*

And if that's something you want to do, then you can.

[Click here if you're a beginner.](#)

**There are NO limitations,** and because there are 1000s of digital products to promote, and because implementing this simple method is free... You really can do this as often as you like...

So the obvious question is...

**Do you want to start doing the very same thing today?**

If you said Yes... Then here's what you need to do.

## **Steps:**

As I mentioned previously the system I've been using to make the affiliate commission I've shown you in this report is called CPS, [you can see the full system here](#).

CPS is an abbreviation of **Copy, Paste, Share**, because that's all I've been doing to get paid affiliate commission from the products I've mentioned in this report, and it's all you will need to do too.

### **Step 1: Copy?**

In order for any digital product to sell online the owner / creator of that product needs to create sales material, i.e. sales pages, videos, affiliate JV pages, and often JV documents, because without this sales material the product would never sell.

All I do is capitalise on what the product owner has already created. i.e. The product owner has already done most of the work for us. I simply copy 5 elements from the existing sales material ready to use in step 2... [Click here for full details](#).

### **Step 2: Paste?**

Next I paste the copied elements taken from the product sales material into my CPS instruction document in sequence (don't worry, this is super simple). I use a free Google drive for this part, but you could use Microsoft Office instead if you prefer.

Then once I have added in the 5 copied elements, I embed my affiliate link throughout the instruction document & save ready for step 3... [Click here for full details.](#)

### **Step 3: Share?**

This is, in most people's opinion, the light bulb part of the process.

**Why?** Because most of the people I've shown the CPS system to had been trying to make some extra money online for a long time with little to no success. Many of them had purchased product after product and still failed to make that elusive online income.

And the number 1 reason so many of them had failed to find any consistent success was because they weren't able to find or drive traffic (visitors)...

*I.e. If nobody sees your offer, product, or link then nobody can buy anything from you, or click your affiliate link.*

In order to succeed you need traffic.

### **But the reality is...**

- Most people don't have an email list.
- Most people don't have followers.
- Most people don't want to spend ages learning SEO.
- And most don't want to start throwing money at paid traffic.

## **Solution... What I've Been Doing.**

So, based on the assumption that you don't have an email list, followers, or an interest in SEO. And you don't want to pay any money to get visitors to your offers and links. This is what I've been doing with CPS. **And it's something you can do too... [LOOK.](#)**

All I do is share the CPS instructions on a number of totally free to use **MASSIVE** traffic platforms, which combined have a reputed daily visitor number of:

## **Over 1.75 Million Visitors!**

### **That's 1.75 Million Visitors Per DAY!!!**

Yet it doesn't cost me a single cent to use these platforms when I use [This](#).

**Let's be clear though...** The fact that these platforms combined receive over 1.75 million visitors per day doesn't mean that's how many visitors I get, or how many you would get.

The truth is I might only get a few hundred visitors over a couple of days because I'm new to these platforms.

But that's a few hundred 'Targeted' visitors that I didn't have before, which I didn't have to work to acquire, and which I didn't have to pay to get, and that's all I need...

*...It only takes a few of these visitors to make me a healthy amount of affiliate commission.*

## **And I'm doing it all for free...**

You can do the same today, click the following link for the full step by step instructions.

## **[Access The Full CPS Instructions Here](#)**

*Reminder: you don't need any skills to use CPS, and when I say it's free to implement, I do mean it's free to implement.*

*Just click the link, follow the instructions, and then Copy, Paste & Share like I do.*
