A vehicle that rolls when it should be stationary is a serious hazard. Whether you are working on a mine site, managing farm equipment, or securing a semi-trailer on a slope, a reliable wheel chock is one of the most straightforward pieces of safety equipment you can have on hand. FSP Oz Products manufactures the OZCHOKS® range of plastic wheel chocks across Australia, built tough enough to perform in the conditions that genuinely test them.

How Australian Work Sites and Industries Are Secured with the Right Wheel Chock

OZCHOKS® **are heavy duty wheel chocks** for industries like agriculture, mining, and construction. They're designed to stop vehicles and machinery from rolling away.

Made from a single piece of polyethylene filled with polyurethane foam, these chocks have no weak points. They are strong, lightweight, and easy for one person to use.

- UV-stabilised and will not crack, split, or fade in Australia's harsh sun
- Resistant to oil, water, fuels, and lubricants
- Rubber feet and extra grip chevrons provide traction on slopes and uneven ground
- Available in standard yellow and black, with other colours on request
- Suitable for cars, caravans, 4WDs, light trucks, semi-trailers, mining trucks, and farm vehicles
- Complies with Australian and international safety standards
- Built-in handles for easy carrying and wall mounting between uses

Why FSP Oz Products Is the Right Supplier for Wheel Chocks in Australia

FSP Oz Products has been manufacturing heavy duty plastic products since 1994, and the OZCHOKS® range has become one of the most recognised wheel chock brands on Australian work sites. Our chocks' one-piece, foam-filled design makes them strong yet lightweight. With distribution centres across Australia, getting the right chock to your site is fast and easy.

- Decades of experience manufacturing plastic safety equipment in Australia
- Trusted by operators in mining, agriculture, transport, construction, and defence
- Full 12-month warranty on material and workmanship defects
- Mounting brackets and trolleys available to suit all OZCHOKS® sizes
- Direct ordering available for competitive pricing
- Reseller and distributor opportunities available nationally
