Melbourne, Victoria : Storage should be the last thing a facility manager has to think about. At OzLoka® Australia, we make sure it is. Our range of **lockers in Melbourne** is trusted by some of the city's busiest schools, corporate offices, gyms, and industrial operations because once our lockers go in, they stay working without any fuss.

Every OzLoka® locker is made from heavy duty polyethylene using rotational moulding technology. The result is a one-piece body with no weak points, no joints that fail, and no surfaces that corrode. Whether the locker sits in a school corridor, a mine site changeroom, or a poolside facility, it handles the conditions without complaint.

We provide a fully modular locker system for buyers in Melbourne. That means every order is built around your space, not the other way around. Pick the body size, the door configuration, the colour, and the accessories you actually need, and we deliver it fully assembled and ready to install.

Key Features:

- 15-year warranty backed by over 30 years of manufacturing experience
- Six locker body sizes to suit everything from phone storage to full PPE and sports equipment
- Stainless steel lock loops ready for padlock, digital, key, coin, or combination locking
- 25 anti-fade colour options with heights ranging from 250mm to 1930mm
- Add-on accessories available including shelves, coat hooks, USB charging ports, and sloping tops
- 100% recyclable heavy duty polyethylene construction
- Arrives fully assembled, no tools or tradespeople needed

About OzLoka® Australia:

OzLoka® Australia has been manufacturing and supplying heavy duty plastic lockers for over 30 years. We serve schools, workplaces, gyms, healthcare facilities, mining sites, and government organisations across Australia and in New Zealand, the United States, and the United Kingdom. Every locker comes with a 15-year warranty and is built from heavy duty polyethylene.

Melbourne buyers can use our online locker builder at www.ozloka.com to put a configuration together and get a quote quickly.
